Career History

FOREST FIRE CONTROL MONITORING ANALYST

National Forestry Commission (CONAFOR) (2017-present)

Remote monitoring of forest fires, using Geographic Information Systems (GIS), phone reports and constant communication with all Mexican States authorities and stakeholders.

SALES SUPPORT BILINGUAL REPRESENTATIVE

Panduit Mexico (2014-2016)

Supporting salesmen from Europe, Middle East, Asia and Latin America, by creating special pricing lists, verifying product availability, shipping samples, among other administrative activities.

Education

FRONT-END DEVELOPMENT

Laboratoria (may 2019 – nov 2019)

Intensive full-time programming bootcamp that simulates a working environment and focuses on both technical and soft skills, using agile methodologies.

BACHELOR'S DEGREE IN BIOLOGY

University of Guadalajara (2004-2009)

I obtained the bachelor's degree through CENEVAL test, approving with outstanding performance.

I worked as a scientific research assistant at the Molecular Systematics Laboratory of the University of Guadalajara, working with DNA extraction, PCR and electrophoresis.
